

February 2006

Dear KDSI Customers,

We hope you find the information in our newsletter to be valuable for enhancing your Internet experience with KDSI. Feel free to pass these stories on to friends and family.

In this issue:

- NEW DSL Promotions
- Antispyware Programs
- Internet Virus Notification
- LINK OF THE MONTH: www.timeanddate.com

Thank you for your business and your loyalty.

The KDSI "I-team"

NEW DSL PROMOTIONS

The new DSL promotions have been posted to our web site! Check-it-out www.kdsi.net

With KDSI DSL services, you are ALWAYS on the Internet! ALWAYS! It's simple to set up and you don't need a second phone line - talk on the phone and surf the Internet at the same time.

- * Service up to 100x faster than dial-up
- * SEVERAL speed options available
- * Advanced security features, including anti-virus and anti-spyware
- * FREE activation
- * Includes e-mail addresses, Web space, Anti-spam filtering and more

For more information, visit [KDSI DSL Info](#)

ANTISPYWARE PROGRAMS

We all should know about spyware and adware by now, but just in-case here is a list of spyware cleaning programs.

<http://www.majorgeeks.com/downloads31.html>

In a previous newsletter, we also suggested:

- [AdAware](#)
- [Microsoft's free anti-spyware \(beta\)](#) (FOR WINDOWS XP ONLY)
- [Spybot Search and Destroy](#)

If you have any questions regarding Anitspyware products/programs, please contact our support team at 888-382-5670 or 308-382-8764.

INTERNET VIRUS NOTIFICATION

A new computer worm, which goes by the names Kama Sutra, Blackworm, Nyxem and MyWife, has been very activate this month and is scheduled to be active on the 3rd of every month thereafter.

How it works:

The worm spreads through e-mail attachments with enticing links such as "best video clip ever" and "Hot Movie." Clicking on one of these links activates the worm. Once executed, it can corrupt and overwrite the most common Windows file types: .doc, .pdf, .zip, and .xls, among others. This means the data will be changed and will be unrecoverable. The worm also tries to disable antivirus software.

What to do:

- * Question e-mail messages, even if they seem to be from people you know.
- * Be aware of e-mail subject lines like "Hot Movie," "Kama Sutra pics," "FW: SeX.mpg," " the best video clip ever."
- * Don't click on questionable attachments
- * Update your antivirus software and scan your computer.
- * Back up your most important data to CDs, DVDs, or zip drives.
- * Remember that, unlike other malware, Kama Sutra has no cure-all "patch"

LINK OF THE MONTH/CUSTOMER SITE OF THE MONTH

This is a new feature for 2006 and thought it might be fun to involve YOU, our customers in this process. We are primarily interested in showcasing sites that are well-designed, comprehensive, intriguing and/or sites that may be technically helpful to our users. If you would like to submit an idea, feel free to forward them to support@kdsi.net.

This month, [Time and Date](#) is the site we chose. This site showcases lots of time and date related information, such as yearly and monthly calendars, counters, countdown, and the world clock which shows the current time in many cities all over the world.

Again, if you would like to submit an idea, feel free to forward it to support@kdsi.net

AND JUST FOR FUN You know you are living in 2006 when:

- You haven't played solitaire with real cards in years.
- You email the person who works at the desk next to you.
- Leaving the house without your cell phone, which you didn't have the first 20 or 30 (or 60) years of your life, is now a cause for panic and you turn around to go and get it.
